About the Editor ix
Introduction x

Chapter 1 Part 1 . . . . . **1**
Biostratigraphic and Geochemical Constraints on the Stratigraphy and Depositional Environments of the Eagle Ford and Woodbine Groups of Texas
Richard A. Denne, John A. Breyer, Tobi H. Kosanke, Joan M. Spaw, Arden D. Callender, Russell E. Hinote, Mohsen Kariminia, Nataliya Tur, Zachary Kita, Jackie A. Lees, and Harry Rowe

Chapter 1 Part 2 . . . . . **87**
Regional Depositional Episodes of the Cenomanian–Turonian Eagle Ford and Woodbine Groups of Texas
Richard A. Denne and John A. Breyer

Chapter 2. . . . . . **135**
Petroleum Geochemistry of the Cenomanian–Turonian Eagle Ford Oils of South Texas
John Zumberge, Harold Illich, and Lowell Waite

Chapter 3. . . . . . **167**
An SEM Study of Porosity in the Eagle Ford Shale of Texas—Pore Types and Porosity Distribution in a Depositional and Sequence-stratigraphic Context
Juergen Schieber, Remus Lazar, Kevin Bohacs, Robert Klimentidis, Mirela Dumitrescu, and Jeff Ottmann

Chapter 4. . . . . . **187**
Delineation of an Oil Window—An Integrated Approach
Roberto Alaniz, Robert Garrison, Ryan Harbor, Steven Keenan, and Chester Pieprzica

Chapter 5. . . . . . **213**
Assessing Well Performance in a Prolific Liquids-rich Shale Play—An Eagle Ford Case Study
Paul R. Clarke, Douglas H. Portis, Gervasio J. Barzola, Hector Bello, and Neil K. Basu

Chapter 6. . . . . . **241**
Seismic Attributes: Exploiting Seismic Data to Understand Heterogeneous Reservoir Performance in the Eagle Ford Shale, South Texas, U.S.A.
Kit Clemons, Hector Bello, Robert Bodziak, Matthew McChesney, Robert Meek, and Andy Stephens

Chapter 7. . . . . . **259**
Chemostratigraphic Variability of the Eagle Ford Shale, South Texas: Insights into Paleoredox and Sedimentary Facies Changes
Beau M. Tinnin and Shariva T. R. Darmaoen

Chapter 8 . . . . . **285**
Geological Controls on Matrix Permeability of the Eagle Ford Shale (Cretaceous), South Texas, U.S.A.
Tobi Kosanke and Anne Warren

Chapter 9 . . . . . **301**
Findings from the Eagle Ford Outcrops of West Texas and Implications to the Subsurface of South Texas
Arthur D. Donovan, T. Scott Staerker, Rand Gardner, Michael C. Pope, Aris Pramudito, and Matthew Wehner

Chapter 10 . . . . . **337**
The Role of Integrated Reservoir Petrophysics in Horizontal Well Evaluations to Increase Production in the Eagle Ford Shale
Kevin B. Fisher

Chapter 11 . . . . . **369**
Facies, Fractures, Pressure, and Production in the Eagle Ford Shale (Cretaceous) between the San Marcos Arch and the Maverick Basin, Texas, U.S.A.
John A. Breyer, Richard A. Denne, Tobi Kosanke, Joan M. Spaw, Jonathan Funk, Pete Christianson, Debbie A. Bush, and Ronald A. Nelson
