About the Editor	v
Preface	ix
Chapter 1.	1
Dynamic Interplay among Tectonics, Sedimentation, and Petroleum Systems: An Introduction and Overview <i>Dengliang Gao</i>	
Chapter 2.	15
Tectonics and Sedimentation in Extensional Rifts: Implications for Petroleum Systems <i>Ian Davison and John R. Underhill</i>	
Chapter 3.	43
Comparison of Structural Styles and Giant Hydrocarbon Occurrences within Four Active Strike-slip Regions: California, Southern Caribbean, Sumatra, and East China <i>Paul Mann</i>	
Chapter 4.	95
Large-scale Tectonic Controls on the Origin of Paleozoic Dark-shale Source-rock Basins: Examples from the Appalachian Foreland Basin, Eastern United States <i>Frank R. Ettensohn and R. Thomas Lierman</i>	
Chapter 5.	125
Tectonic Evolution of the Outer High of Santos Basin, Southern São Paulo Plateau, Brazil, and Implications for Hydrocarbon Exploration <i>Paulo Otávio Gomes, Bill Kilsdonk, Tim Grow, Jon Minken, and Roberto Barragan</i>	
Chapter 6.	143
Structural Framework of Lower Cretaceous Half Grabens in the Presalt Section of the Southeastern Continental Margin of Brazil <i>Oscar López-Gamundí and Roberto Barragan</i>	

Chapter 7.	159
Linked Extensional-compressional Tectonics in Gravitational Systems in the Equatorial Margin of Brazil	
<i>Maria José R. Oliveira, Pedro V. Zalán, João L. Caldeira, Arnaldo Tanaka, Paulo Santarem, Ivo Trosdorf Jr., and Anderson Moraes</i>	
Chapter 8.	179
Hydrocarbon Prospectivity in Mesozoic and Early–Middle Cenozoic Rift Basins of Central and Northern Kenya, Eastern Africa	
<i>Jean-Jacques Tiercelin, Peter Thuo, Jean-Luc Potdevin, and Thierry Nalpas</i>	
Chapter 9.	209
Tectonic Control on Hydrocarbon Accumulation in the Intracontinental Albertine Graben of the East African Rift System	
<i>Dozith Abeinomugisha and Robert Kasande</i>	
Chapter 10.	229
Cross-regional Intraslope Lineaments on the Lower Congo Basin Slope, Offshore Angola (West Africa): Implications for Tectonics and Petroleum Systems at Passive Continental Margins	
<i>Dengliang Gao and Jeff Milliken</i>	
Chapter 11.	249
Structural Correlation between the Northern Calcareous Alps (Austria) and the Transdanubian Central Range (Hungary)	
<i>Hans-Gert Linzer and Gabor C. Tari</i>	
Chapter 12.	267
The South Chukchi Sedimentary Basin (Chukchi Sea, Russian Arctic): Age, Structural Pattern, and Hydrocarbon Potential	
<i>Vladimir E. Verzhbitsky, Sergey D. Sokolov, Erling M. Frantzen, Alice Little, Marianna I. Tuchkova, and Leopold I. Lobkovsky</i>	
Chapter 13.	291
Interaction of Oligocene–Miocene Deep-water Depositional Systems with Actively Evolving Structures: The Lower Congo Basin, Offshore Angola	
<i>Arlene V. Anderson, Donald K. Sickafoose, Tim R. Fahrner, and Richard R. Gottschalk</i>	
Chapter 14.	315
A Case Study of Three-dimensional Fold and Growth Sequence Development and the Link to Submarine Channel-structure Interactions in Deep-water Fold Belts	
<i>Ian R. Clark and Joseph A. Cartwright</i>	
Chapter 15.	337
Deep-Water Exploration in Atlantic Morocco: Where Are the Reservoirs?	
<i>Gabor Tari, Haddou Jabour, Jim Molnar, David Valasek, and Mahmoud Zizi</i>	

Chapter 16.	357
Lithospheric Flexure and Related Base-level Stratigraphic Cycles in Continental Foreland Basins: An Example from the Putumayo Basin, Northern Andes	
<i>John Londono, Juan M. Lorenzo, and Victor Ramirez</i>	
Chapter 17.	377
Forebulge Migration: A Three-dimensional Flexural Numerical Modeling and Subsurface Study of Southwestern Wyoming	
<i>Hongjun Luo and Dag Nummedal</i>	
Chapter 18.	397
The Evolution of the South China Sea Basin in the Mesozoic–Cenozoic and Its Significance for Oil and Gas Exploration: A Review and Overview	
<i>Fengli Yang, Dengliang Gao, Zhuan Sun, Zuyi Zhou, Zhe Wu, and Qianyu Li</i>
