# Table of Contents

Title Page ......................................................... i
Copyright ......................................................... ii
Editorial ......................................................... iii
Acknowledgments ................................................ vi
About the Editors .............................................. vii
Note to the Reader ............................................. viii
Introduction ..................................................... ix
  Wayne K. Camp, Elizabeth Diaz and Barry Wawak

Chapter 1. ......................................................... 1
  An Introduction to SEM Operational Principles and Geologic Applications for Shale
  Hydrocarbon Reservoirs
  Jason Huang, Timothy Cavanaugh and Boaz Nur

Chapter 2. ......................................................... 7
  Integrated Preparation and Imaging Techniques for the Microstructural and Geochemical
  Characterization of Shale by Scanning Electron Microscopy
  Natasha Erdman and Nicholas Drenzek

Chapter 3. ......................................................... 15
  Enhancing SEM Grayscale Images through Pseudocolor Conversion: Examples from
  Eagle Ford, Haynesville, and Marcellus Shales
  Wayne K. Camp and Barry Wawak

Chapter 4. ......................................................... 27
  Multiscale Imaging of Shale Samples in the Scanning Electron Microscope
  Herman Lemmens and Denise Richards

Chapter 5. ......................................................... 37
  Microfabrics Related to Porosity Development, Sedimentary and Diagenetic Processes,
  and Composition of Unconventional Resource Shale Reservoirs as Determined by
  Conventional Scanning Electron Microscopy
  Roger M. Slatt and Neal R. O’Brien

Chapter 6. ......................................................... 45
  SEM Characterization of Shale Gas Reservoirs Using Combined Secondary and
  Backscatter Electron Methods: An Example from the Haynesville Shale, Texas and
  Louisiana
  David R. Spain and Ryan McLin

Chapter 7. ......................................................... 53
  FIB-SEM and TEM Investigations of an Organic-rich Shale Maturation Series from the Lower
  Toarcian Posidonia Shale, Germany: Nanoscale Pore System and Fluid-rock Interactions
  Sylvain Bernard, Leon Bowen, Richard Wirth, Anja Schreiber, Hans-Martin Schulz, Brian Horsfield,
  Andrew C. Aplin, and Eliza J. Mathia
Chapter 8. Pore Size Distribution and Morphology in the Horn River Shale, Middle and Upper Devonian, Northeastern British Columbia, Canada
  Tian Dong and Nicholas B. Harris

Chapter 9. Porosity Characterization of Various Organic-rich Shales from the Western Canadian Sedimentary Basin, Alberta and British Columbia, Canada
  Raphael A. J. Wüst, Brent R. Nassichuk, and R. Marc Bustin

Chapter 10. Petrographic Characterization of the Eagle Ford Shale, South Texas: Mineralogy, Common Constituents, and Distribution of Nanometer-scale Pore Types
  Debra S. Jennings and Jonathan Antia

Chapter 11. Applications of SEM Imaging to Reservoir Characterization in the Eagle Ford Shale, South Texas, U.S.A.
  Brian Driskill, Joel Walls, Juliana DeVito, and Steven W. Sinclair

Chapter 12. Comparison of Porosity Distribution within Selected North American Shale Units by SEM Examination of Argon-ion-milled Samples
  James M. Rine, Erin Smart, William Dorsey, Kultaransingh Hooghan, and Michael Dixon

Chapter 13. SEM Observations on Ion-milled Samples of Devonian Black Shales from Indiana and New York: The Petrographic Context of Multiple Pore Types
  Juergen Schieber

Glossary

Image Catalog

DVD MATERIAL

Appendix A
  Petrographic Analysis

Appendix B
  Petrographic Descriptions and Thin Section Photomicrographs

Appendix C
  Pseudocolor Catalog Images

Appendix D
  Three-dimensional SEM Imaging and Digital Rock Physics
